SUPPLEMENT TO
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE
OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793
AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVE-
LATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS
PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. A Rumanian mountain regiment consists of a staff, including a commander, a political officer who is also deputy commander, an adjutant, a quartermaster, a chief medical officer, a chief veterinary officer, and a "secret chancellor".
2. Such a regiment has two mountain infantry battalions, a regimental artillery unit which consists of an accompanying battery with four guns, a mortar battery of three platoons, each of which has two 120 mm mortars, and an anti-tank battery of three platoons, each with two 57 mm Soviet anti-tank guns.
3. The regimental organization is not a solidly established administrative command. It handles training and only in wartime takes over the full command function. For this reason, a mountain regiment has no organization to handle reinforcement, and supply goes directly to the battalions and the artillery unit.
4. The regimental staff has a guard platoon under its command, armed with two light machine-guns of the X.B. type, each with 20 magazines, and 10 machine-pistols, 9 mm caliber, in addition to rifles.
5. The guns of the artillery unit are 76.2 mm, model 43 SIS 3, with shortened barrels, and no muzzle screens. The anti-tank guns are motorized.
